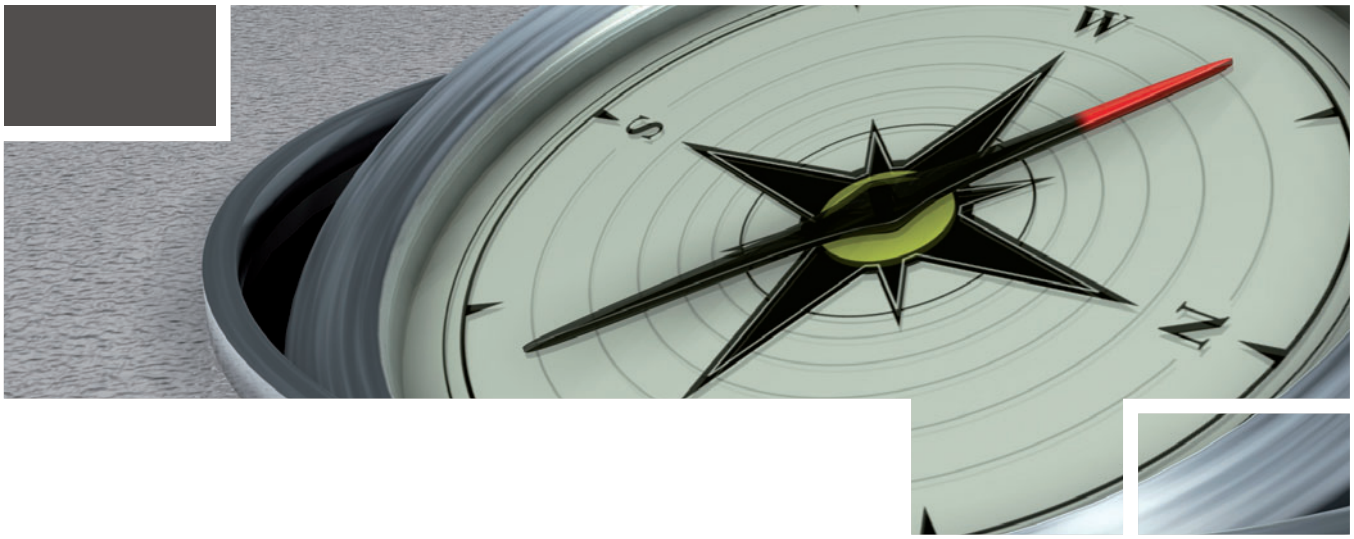
The essentials of imaging

pagepro 4650EN

Efficient and reliable office printing solution

Monochrome workgroup printer 34 ppm

pagepro 4650EN



Efficient and **reliable**

Guarantee that your printer can satisfy the demands of a busy office environment – with the pagepro 4650EN monochrome printer. You can depend on it when the going gets tough, thanks to its powerful and reliable construction. Not only do you get your prints quickly, you can be sure of outstanding image quality. Easy use and maintenance, as well as smooth integration into your network, simplify printing tasks for all involved.

Print with quick confidence

Get your prints quickly – and be sure of it. Prints are delivered at 34 pages per minute, with the first document in your hands in 10.5 seconds.
The pagepro 4650EN allows you to stay on top of urgent business matters and heavy printing tasks. The latest Emperon™ controller, 500 MHz processing and 128 MB standard memory give ample power, assuring a consistent and reliable performance.

Enjoy smooth network integration and compatibility

Reach a new level of ease in network compatibility. Above par with the latest in document processing, the pagepro 4650EN supports the XPS (XML Paper Specification) file format from Microsoft Vista™: it simplifies and improves printing and sharing (HDD required). The next-generation Emperon™ system also ensures that you are able to control and benefit from various printing languages (PostScript® 3™ and PCL® 6), operating systems and business applications.

Print your large-size documents, such as reports and presentations (PDF, TIFF, JPEG files), right from a USB memory stick – eliminate the need for a PC to print and keep the network free (HDD or CompactFlash™ card required).

Secure more control over your printing

Utilise the secure printing option on the pagepro 4650EN to keep your documents confidential. First set an alphanumerical password on your computer; printing starts only when you enter the code again on the front panel, allowing you to collect the pages as soon as the project is finished.

Keep track of print job details with an easy accounting overview, so costs can be controlled and billed correctly (HDD or CompactFlash™ card required). Printer status information – toner level, paper jams, maintenance – can be accessed in real-time via the PC, with PageScope® Suite management tools. Maintenance is made even easier with the all-in-one consumable cartridge.

Add up versatile printing capability

Fulfil a wide range of office printing requirements with the pagepro 4650EN. All trays can handle up to 216 g/m^2 paper, excellent for invoices, orders, packing lists, labels and much more. An optional lower feeder boosts the capacity to 1800 pages, which reduces user intervention. Opt for an offset stacker to extend the output capacity by 500 sheets and get sorting capability. A duplexer is also available if commercial-quality reports and booklets are required.

pagepro 4650EN

KONICA MINOLTA

Technical specifications

Processor	500 MHz
Print speed (ppm)	34 ppm
Resolution	1200 x 1200 dpi
Duty cycle	150,000 pages per month
Memory	128 MB standard, 384 MB maximum
Standard interfaces	Parallel, USB 2.0 (High-Speed), Gigabit Ethernet
USB host port	Direct print
Media sizes	A4, A5, A6, B5, B5 (ISO), B6, letter, legal, 16K, Kai16, Kai32, J-Postcard, executive, Government letter/legal, folio, envelope C5/C6, envelope monarch, envelope DL, envelope COM10, double postcard, statement, UK Quarto, foolscap, custom (76.2-215.9 mm x 127-355.6 mm) – up to 900 mm
Media weight	Plain paper (60-105 g/m²), thick paper (106-216 g/m²), recycled paper (60-105 g/m²) and duplexing[1](60-105 g/m²)
Media input	• Standard paper input: 550-sheet and 150-sheet tray • Optional paper handling: 2 x 550-sheet A4 lower paper feeder
Media output	• Standard paper output: 500-sheet face-down output tray • Optional 500-sheet offset stacker • Optional 70-sheet face-up tray

Secure printing	Hard disk (HDD) option required[2]
Language compatibility	PostScript® 3™, XPS, PCL® 6 (XL3.0), PCL® 5 e/c
Warranty	1 year on-site (within EU; local law applies)

[1] Duplexer supports plain paper only.

[2] Optional hard disk kit enables Secure printing, Proof-then-Print, Print & Hold, Job storing and XPS support in addition to all extra functions with CF card.

The addition of some options, in some combinations may cause the product to become non-compliant. Establishment of new regulations may cause the product to become non-compliant. Energy Star compliance does not represent an EPA endorsement of any product or service. Specifications and accessories are based on the information available at the time of printing, and are subject to change without notice. For the latest information, please visit www.konicaminolta.eu.

The stated life expectancy of each consumable in the printer is based on printing under specific operating conditions such as page coverage for a particular page size (5 % coverage of A4). The actual consumables life will vary depending on the use and other printing variables including page coverage, page size, media type, continuous or intermittent printing, ambient temperature and humidity. For more information about toner life expectancy, visit http://printer.konicaminoltaeurope.com/tco
