Xerox® Mobile Print
Productivity anywhere your business takes you.

xerox ®

True printing freedom that's simple, convenient and secure.

It's no secret that mobile technology has changed where and how business gets done. People work from virtually anywhere, and as mobile as our *workforces* have become, people still need to print conveniently – wherever and whenever business requires. That's where Xerox can help with powerful and flexible choices.

Convenient Mobile Printing

From most mobile devices to almost any networked printers or multifunction systems, Xerox® Mobile Print raises your productivity anyplace your business takes you – whether you're out and about or simply in another part of your building.

We take the mystery and anxiety out of mobile printing with truly flexible solutions that are simple, convenient and secure.

Flexible Print Workflows

Xerox® Mobile Print enables you to easily print from your smartphone or tablet – as well as laptops and desktops. You can:
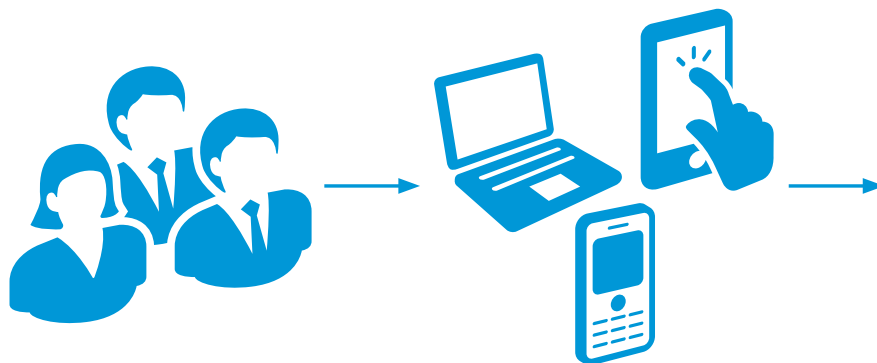

- Choose between an easy-to-use app or simple email submission.
- Print any typical office document including PDFs. Furthermore, true native Microsoft Office conversion ensures that your Word, Excel and PowerPoint documents are printed correctly.
- Find the closest printer and manage your print settings.
- Preview your document.
- Securely release your document to print.

The Choice is Yours

So in the end the choice becomes simple, do you want mobile print on your own server or in the cloud? And do you want this as part of a managed print service agreement or standalone? Whichever way, it will be simple, convenient and secure and delivered the way you want.

Xerox® Mobile Print enables you to print from most mobile devices, including:

- Mobile Smartphones
- Tablets
- PCs and Laptops

Your mobile workers on the go   ...need to print from their mobile device

Accelerate your productivity. Simplify your work life.

Xerox® Mobile Print is simple, convenient and secure.

Simple

Submit documents through your email or by using our app. Printing workflows are hassle-free, enabling you to print when and where you need.

- No print driver download is required to print.
- Find the nearest location of a device using Google Map. The Near Me Map feature offers a simple way to find Mobile enabled printers.
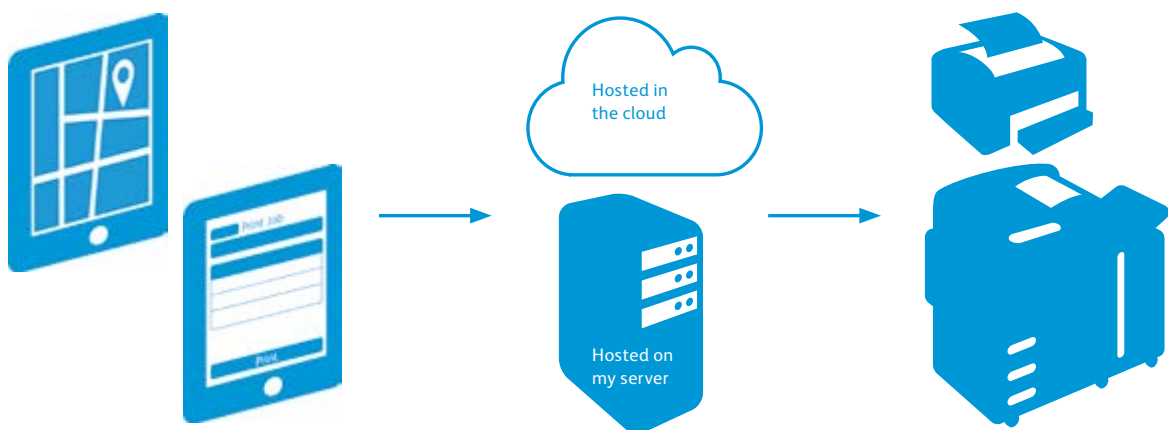

Convenient

Raises the bar on printing, giving you just what you need, right when you need it.

- Preview jobs before printing and set print options such as duplex – all right from your tablet, smartphone or printer control panel.
- A central portal for all account and device management, whether in the cloud or on-site, makes deploying a Mobile Print strategy convenient for even the non-IT experts.

Secure

Provides robust protection at every level and gives you the security and control you require.

- Establish access controls that Allow or Block the ability to mobile print.
- Securely hold documents until you choose to release for print.

App and email print submission methods allow you to choose when and where to print

...using your choice of deployment

...for secure print and release to most networked printers or multifunction systems
